

THE FRANZ ALEXANDER (1891-1964) PAPERS

Dates of Papers: 1925-1981

Bulk Dates: 1930-1964

7 Linear feet
(17 boxes)

The Oskar Diethelm Library
DeWitt Wallace Institute for the History of Psychiatry
Weill Cornell Medical College
525 East 68th Street
New York, New York 10065

Arranged and described by:
Marisa Shaari, Special Collections Librarian
Laura Childs, graduate student Intern
May 2015

Provenance

The Franz Alexander Papers were donated to the Oskar Diethelm Library, DeWitt Wallace Institute for the History of Psychiatry at Weill Cornell Medical College by the Pollock family in 2014. These papers were given to Dr. George Pollock by Franz Alexander's children in 1992. George Pollock, a psychiatrist, was a former director of the Institute for Psychoanalysis in Chicago and former president of the American Psychiatric Association. He had a close personal and professional relationship with Alexander and was working on a biography of him at the time of his death in 2003.

Administrative/Biographical Note

Franz Gabriel Alexander (1891-1964), renowned Hungarian psychiatrist and psychoanalyst, was born January 22, 1891 in Budapest. He is often described as one of the founders of psychosomatic medicine for his work in identifying emotional tension as a cause of physical illness. He is also known for using psychoanalytic theories to study criminal behavior.

Alexander enrolled as the first student in the Berlin Psychoanalytic Institute in 1919. While there, he underwent a personal analysis with Hanns Sachs and later became an assistant at the Institute. His first book, *The Psychoanalysis of the Total Personality* (1930), grew out of a lecture series he presented at the Institute in 1924-25. Alexander was invited to the United States in 1930 to serve as Visiting Professor of Psychoanalysis at the University of Chicago, a new post

created specifically for him. After a year in Chicago, Alexander moved to Boston and completed a study of delinquency with William Healy. This work was presented in their book, *Roots of Crime* (1935).

In 1932, he returned to Chicago to help establish the Chicago Institute for Psychoanalysis and served as its director until 1956. As director, he sought to attract many analysts and students who researched and studied emotional disorders and psychosomatic diseases. He published another book in 1950, *Psychosomatic Medicine: Its Principles and Practices*.

Alexander also served as a faculty member in the Department of Psychiatry at the University of Illinois Medical School in Chicago from 1938-1956. He held many other posts, fellowships and consultancies during his professional years. In 1956 he became Chief of Staff of the new Psychiatric Department at Mount Sinai Hospital in Los Angeles and Professor of Psychiatry at the University of Southern California. He also served as a training and supervising analyst at the Southern California Psychoanalytic Institute. He died March 8, 1964 in Palm Springs, California.

Scope and Content

This collection contains correspondence, documents, publications and professional writings, notes, photographs and other personal and professional materials dating from 1901-1986, with the bulk of the material dating to the 1930s. The majority of the materials are in English, but there are a few letters/documents in German, Hungarian, and Italian. The papers are divided into six series: **Franz Alexander Correspondence (1927-1986), Franz Alexander General Files (1931-1981), Franz Alexander Miscellaneous/Personal Files (1901-1956), Anita Alexander Files (1932-1964), Reprints, Publications, etc. (1925-1961), and Photographs (1927-1964).**

The papers came to the library already organized into categories by correspondence, other files, reprints and publications, and photographs. This original order has been maintained. In most cases, the individual folder structure has also been maintained, as the correspondence and the reprints/publications were organized alphabetically. There was an index done at some point listing the contents of each of the original boxes and the title of each folder. A copy of this list is stored with the collection. The collection is comprised of 16 document boxes and one flat print box for photographs, comprising a total of 17 boxes.

Series I: Franz Alexander Correspondence, 1927-1986, bulk 1933-1939 (Boxes 1-5)

This series, arranged alphabetically by author, contains Alexander's correspondence with colleagues and other entities, mostly professional in nature, but some personal. It includes correspondence related to appointments, translations, writings, talks, requests for articles, requests for immigration assistance, etc. Miscellaneous materials are filed at the end of the series.

Series II: Franz Alexander General Files, 1931-1981, bulk 1935-1942 (Boxes 6-8)

This series is arranged alphabetically by the name of the organization, company, or group and has been kept in the original order. It includes correspondence, papers, meeting programs, requests for lectures, etc. Miscellaneous materials are filed at the end of the series.

Series III: Franz Alexander Miscellaneous/Personal files, 1901-1956, bulk 1930s (Box 9)

This series includes lectures, articles, immigration and insurance documents, school transcripts for Alexander, and newspaper clippings, among other materials.

Series IV: Anita Alexander's files, 1932-1964 (Box 10)

This series contains papers of Anita Alexander, Franz's wife. It includes financial documents, receipts, condolences on Alexander's death, correspondence with friend Pauline Phillips (Dear Abby), other correspondence, and materials related to Anita's paintings in galleries, exhibits, etc.

Series V: Reprints, Publications, Articles, Book Reviews, other writings, 1925-1961, (Boxes 11-15)

This series is arranged alphabetically by title and predominantly contains reprints of Alexander's published writings. The reprints arrived arranged alphabetically with a list of titles for each folder, but the folders have been reorganized. The original lists are stored with this series.

Many of the reprints are stamped property of the library of the Institute for Psychoanalysis in Chicago. When contacted in 2015, representatives of the library were doubtful of any need to return them, but the situation remains unresolved.

Series VI: Photographs, 1927-1964 (Boxes 16-17)

This series contains professional portraits of Franz Alexander, some professional portraits of Anita and daughters Kiki and Silvia Alexander, many family snapshots and vacation photographs, and a photograph of Franz's father, Bernard Alexander.

Access Restrictions

Folder 27 in Box 3 of Series I: Franz Alexander Correspondence, is restricted due PHI (private health information). It has been removed from Box 3 and stored separately.
